Professional Summary

Creative and detail-oriented Frontend & UI Designer with hands-on experience designing responsive digital interfaces and visual assets using React.js, Figma, Canva, and Tailwind CSS. Passionate about creating engaging user experiences, clean layouts, and visually impactful designs across web and digital platforms. Skilled in transforming ideas and mockups into modern, user-friendly interfaces while maintaining consistency, accessibility, and brand aesthetics. Quick learner with strong collaboration skills and enthusiasm for multimedia, creative storytelling, and performance-focused design.

Education

Bachelor of Computer Application (BCA) , Sandip University, Nashik	Sept 2022 – May 2025
• CGPA: 7.72/ 10.0	
Higher Secondary Certificate , Mahatma Basveshwar College, Latur	April 2020 – May 2022
Secondary School Certificate , Twinkle Land English School, Latur	June 2019 – March 2020

Experience

Frontend Developer Intern , Denkfabrik Tech Solutions LLP, Nashik	December 2024 – July 2025
- Designed and developed responsive web interfaces with a strong focus on visual consistency and user experience. - Collaborated with designers to convert Figma mockups into modern and pixel-perfect UI components. - Created reusable UI sections, banners, layouts, and interactive components using React.js and Tailwind CSS. - Worked on improving interface accessibility, responsiveness, typography, spacing, and overall visual presentation. - Assisted in creating creative assets and UI improvements for web-based projects while following modern design trends. - Participated in Agile team discussions, design reviews, and version control workflows using Git and GitHub.	

Projects

Turf Booking System UI

- Designed and developed a modern sports turf booking interface with responsive layouts and intuitive user experience.
- Created visually engaging UI sections including booking cards, schedules, navigation, and mobile-friendly screens.
- Used Tailwind CSS and React.js to build reusable and aesthetically consistent components.
- Focused on clean typography, spacing, accessibility, and smooth interaction design.
- Technologies used:** React.js, Tailwind CSS, JavaScript, Figma.

RentalHub – Rental Management System

- Designed responsive and visually engaging UI layouts for property and tenant management workflows.
- Created reusable frontend components and dashboard interfaces using React.js and Tailwind CSS.
- Focused on clean typography, spacing, accessibility, and user-friendly interaction design.
- Applied UI/UX principles to improve visual storytelling and organized presentation of information.
- Technologies used:** React.js, Tailwind CSS, Figma, Canva, JavaScript, ASP.NET Core Web API.

Technologies

Design Tools: Figma, Canva, Adobe Photoshop (Basics)
Frontend & UI Development: React.js, HTML5, CSS3, Tailwind CSS, JavaScript
Creative Skills: UI/UX Design, Responsive Design, Visual Storytelling, Typography, Layout Design
Tools & Collaboration: Git, GitHub, Postman

Awards & Achievements

- NASA Space Apps Challenge – 2024:** Participated in the global hackathon and contributed innovative frontend solutions for real-world space and earth challenges.
- Winjit Tech Fest – 2024:** Represented the university and showcased frontend prototyping skills during high-pressure team-based tech challenges.
